SUMMARY

Aspiring AI&Full-stack developer building responsive web applications with React.js, Flask, and PostgreSQL, with hands-on experience designing AI-powered systems using Lang Chain, RAG pipelines, and vector search. Comfortable across the stack — REST API design, database modelling, cloud deployment, and integrating LLMs into production-style applications.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL

AI / ML: Lang Chain, RAG, Prompt Engineering, AI Agent Development, Model Evaluation.

Web & Frameworks: React.js, Flask, Nest.js, Streamlit, Tailwind CSS, REST APIs, JWT Authentication.

Data & Databases: PostgreSQL, Vector Databases (Pinecone), NumPy, Matplotlib, Data Cleaning.

Tools & Platforms: Git, GitHub, Vercel, Render, Postman, Cloudinary, Redis, Microsoft Office.

Core Concepts: Object-Oriented Programming, CRUD Operations, Agile methodology, CI/CD.

PROJECTS

ShelfMart — Full-Stack Online E-Bookstore

2025 – 2026

React.js, Tailwind CSS, Flask, PostgreSQL, JWT, Cloudinary, Razor pay(Demo Payment) | [Live Demo](#)

- Develop a full-stack e-commerce bookstore with **working model of 70~80%**, 20+ REST API endpoints, JWT authentication, and role-based access control.
- Designed a normalized PostgreSQL database with **6+ relational tables** covering books, users, carts, orders, and payments.
- Developed **10+ reusable** React components across **8+ responsive** pages using component-based architecture.
- Integrated Cloudinary for image hosting and Razor pay (test mode) for end-to-end demo checkout.
- Validated authentication, cart, and order workflows using multiple test accounts; deployed on Vercel and Render.

DocuMind Enterprise — AI-Powered Enterprise Knowledge Assistant

2025 – 2026

Python, React.js, FastAPI, Lang Chain, RAG, Vector Database (Pinecone), Vercel | [Live Demo](#)

- Built a production-style RAG platform enabling natural-language search across enterprise documents (**SOPs, HR policies, guidelines**).
- Engineered an ingestion pipeline processing **50+ PDFs (~3,000–5,000 pages)** with **1000-character chunking**, embeddings, and vector indexing.
- Achieved 2–4 second average query response time with page-level citations using hybrid, history-aware retrieval.
- Reached **~90–95%** relevant-retrieval accuracy across **100+ test queries**; added hallucination guardrails to keep answers grounded in retrieved context.
- Designed a responsive React chat interface with streaming responses, citations, PDF upload, and conversational memory.

StatBot Pro — Autonomous CSV Data Analyst Agent

2025 – 2026

Python, Streamlit, Lang Chain, Pandas, NumPy, Matplotlib | [Live Demo](#)

- Making an AI data-analyst agent that answers natural-language queries on CSV/Excel datasets through a Streamlit interface.
- Automated insight generation by dynamically generating and executing Python/Pandas code across **10+ analytical operations**.
- Implemented automated chart generation (**5+ visualization types**) with Matplotlib based on user queries with **accuracy 80~85%**.
- Validated on real-world **datasets (500–15,000+ rows)** across **30+ natural-language queries** spanning multiple domains.

INTERNSHIP EXPERIENCE

Infotac Solution — Data Associate L1, Python Development

Mar – Jun 2025

- Cleaned, transformed, and organized datasets for downstream analytics pipelines using Python-based automation.
- Delivered scripting tasks on schedule alongside senior developers, strengthening production data-engineering skills.

Viswa Digital Technology — Web Development Intern

2024 · 1 Month

- Learned and shipped a food delivery web app working end to end (HTML/CSS frontend, Python/SQL backend) in a team workflow.

True Value Professional Consultancy — Executive Trainee, Admin

2024 · 3 Months

- Managed documentation and data tasks in Excel and Word; met deadlines across concurrent cross-team projects.

EDUCATION

Gnanamani College of Technology B.Tech - Artificial Intelligence & Data Science

Aug 2023 – May 2027

CGPA: 9.03 | Coursework: Machine Learning, Python Programming, Database Systems, Web Technologies.

The Gugai Higher Secondary School — HSC, Mathematics & Computer Science

Passed Out 2023

Percentage: 78%

CERTIFICATIONS & ACHIEVEMENTS

- **Deep Learning using PyTorch + Machine Learning 101** — GUVI / HCL, 2025 (Course Completion Certificate)
- **Cloud Computing and Distributed Systems** — NPTEL, 2025 (Elite Grade, 66%)
- **Introduction to Industry 4.0 and Industrial IoT** — NPTEL, 2026 (Elite + Silver, 80%)
- **Freshers Code War v1.0** — Park College of Engineering & Technology, 2025 (Competitive Coding Certificate).
- **Excellence Award – Cody Challenge** | DAKSHAA T26 – K.S.Rangasamy College of Technology
- **Typewriting (Senior Grade)** — First Class with Distinction.
