SUMMARY

Aspiring **Backend Developer** with hands-on experience in **Python, PostgreSQL, and Basic Web Development**. Skilled in building and testing backend logic, working with databases, and understanding REST-based workflows. Strong problem-solving mindset, eager to learn frameworks like **Flask, REST API**, and motivated to develop scalable and efficient server-side applications.

EDUCATION

Gnanamani College of Technology B.TECH - Artificial Intelligence and Data Science (Pursuing) CGPA: 9.03	Namakkal, India Aug 2023 - May 2027
The Gugai Higher Secondary School (HSC) Maths and Computer Science Percentage: 78%	Salem, India Passed Out - 2023

TECHNICAL SKILLS

Programming Language: Python, JavaScript, C
Database: PostgreSQL
Web & Framework: HTML5, CSS3, Flask, REST APIs.
Tools: Git, GitHub, Canva, Microsoft Office, PostmanAPI, ChatGPT
Core Concepts: Object Oriented Programming.

INTERSHIP EXPERIENCE

TRUE VALUE PROFESSINALL CONSULTANCY | (INTERSHIP)

Role: Executive Trainee Admin Department | **Period:** 3 Months

Gained hands-on experience in consultancy case projects, strengthening logical thinking and problem-solving skills. Improved proficiency in **MS Word and Excel** for accurate documentation and data organization. Worked under professional guidance, meeting deadlines efficiently while enhancing communication and teamwork through collaborative discussions.

VISWA DIGITAL TECHNOLOGY (INTERSHIP)

Role: Web Development Intern | **Period:** 1 Month

Completed a hands-on internship with practical experience in web development, building a **Food Delivery Application** from concept to deployment. Proficient in **Python, SQL**, and front-end fundamentals. Strong **problem-solving** mindset, adaptable, and eager to contribute to innovative projects while expanding technical expertise.

PROJECT

REST API Backend-Flask | Flask, CRUD, JWT, PostmanAPI.

Built a secure REST API backend using **Flask & SQLAlchemy**. Implemented JWT authentication, Password hashing, and protected routes. Enhanced full CRUD APIs for user management. Followed modular architecture and REST best practices.

ATM Mini Project | Python, Flask- SQLAlchemy, PostgreSQL, HTML,CSS, PyCharm.

Developed a RESTful ATM simulation backend using **Flask**. Implemented secure **user authentication, deposit/withdrawal operations, balance management, and database integration** using **SQLAlchemy**. Tested APIs using Postman and followed modular backend architecture principles.

CERTIFICATES & ACHIEVEMENT

- **CLOUD COMPUTING AND DISTRIBUTED SYSTEMS (NPTEL) | 2025:** Completed exam and certification **the Elite Grade of 66%**
- **FRESHERS CODE WAR v.1.0| 2025:** Participate and Gain Certification and the Coding Knowledge and Logical thinking code war at "Park College of Engineering and Technology".
- **DEEP LEARNING USING PYTORCE | 2025:** Certificate of Completion successfully a Course at GUVI HCL with the understanding of **Machine Learning 101** with combine course certificate.
